

Femmina a basso incasso con regolazione eccentrica. Il sistema di montaggio Fastmount ha rivoluzionato il metodo di montaggio dei pannelli negli allestimenti in genere. Questo sistema innovativo permette di ottenere finiture di qualità superiore ed un allineamento sempre perfetto ad ogni utilizzo. I pannelli possono essere rimossi e riposizionati in qualsiasi sequenza ogni qualvolta lo si desidera.

Female clip with lateral adjustment push fits into 35 mm pre drilled hole in deck head frame (grounds). Fits all Low Profile male clip halves. Designed for use with curved panels. Fastmount is the innovative New Zealand company providing international multi award winning removable panel mounting systems, designed specifically for the marine industry. Used by custom yards, outfitter companies, production yards and commercial shipyards in more than 50 countries. Panels can quickly and easily be removed and refitted in any sequence to exactly the same location every time.
